

Task Management System Website

A Comprehensive Web Solution using PHP, MySQL &
Bootstrap,HTML,CSS

Project Overview

A dynamic, role-based web application designed to streamline task delegation, monitor workflow progress, and boost overall team productivity through a modern, intuitive interface.

Technology Stack

PHP Core

Handles the robust backend logic, secure user authentication, routing, and dynamic data processing across the server.

MySQL

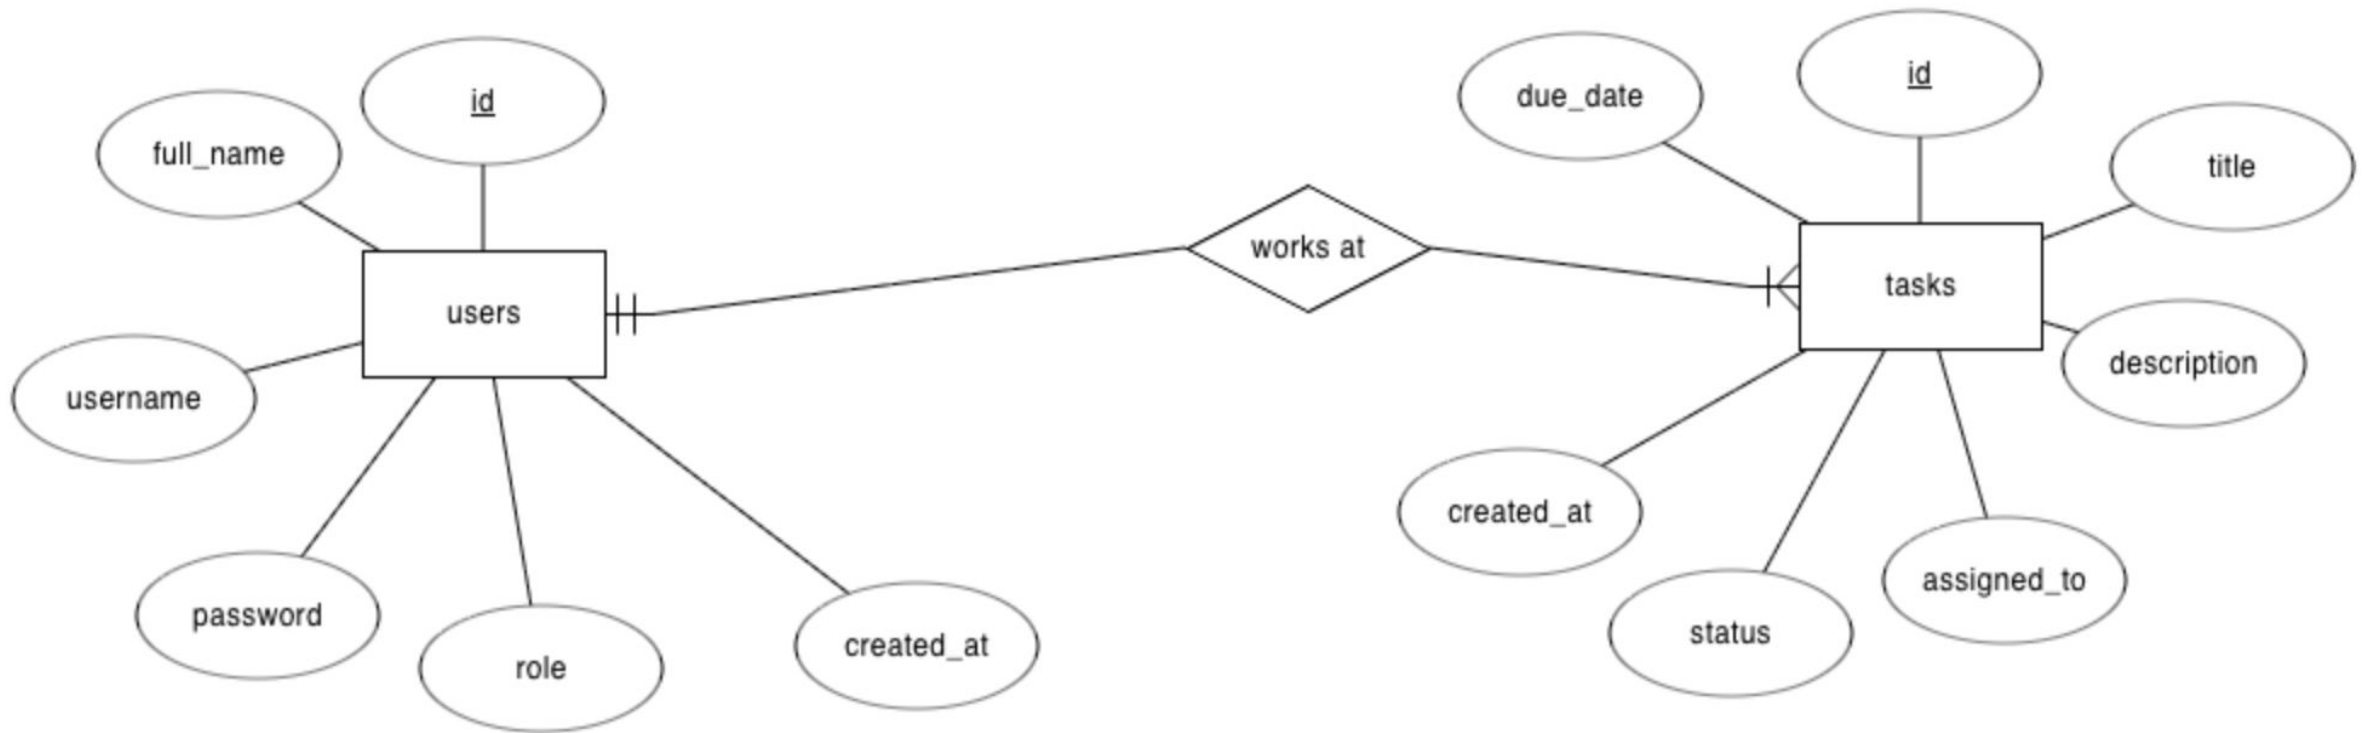

Serves as the relational database management system, securely storing user credentials, tasks, and system records.

Bootstrap & HTML and CSS

Power the frontend aesthetics with HTML, CSS and Bootstrap, providing a fully responsive and clean experience across all devices.

Entity Relationship Diagram(ERD)

SQL Queries

Users Table

```
CREATE TABLE users (  
    id INT AUTO_INCREMENT PRIMARY KEY,  
    full_name VARCHAR(50) NOT NULL,  
    username VARCHAR(50) NOT NULL UNIQUE,  
    password VARCHAR(255) NOT NULL,  
    role ENUM('admin','employee') NOT NULL,  
    created_at TIMESTAMP DEFAULT CURRENT_TIMESTAMP  
);
```

Tasks Table

```
CREATE TABLE tasks (  
    id INT AUTO_INCREMENT PRIMARY KEY,  
    title VARCHAR(100) NOT NULL,  
    description TEXT,  
    assigned_to INT,  
    due_date DATETIME,  
    status ENUM('pending','in_progress','completed')  
    DEFAULT 'pending',  
    created_at TIMESTAMP DEFAULT CURRENT_TIMESTAMP,  
    FOREIGN KEY (assigned_to) REFERENCES users(id) ON  
    DELETE SET NULL  
);
```

User Roles & Access

Administrator

The Admin has complete oversight of the system. They are responsible for managing the workforce and ensuring tasks are distributed effectively.

- ✓ Full system access and analytics
- ✓ Add, edit, or remove users
- ✓ Create and delegate tasks

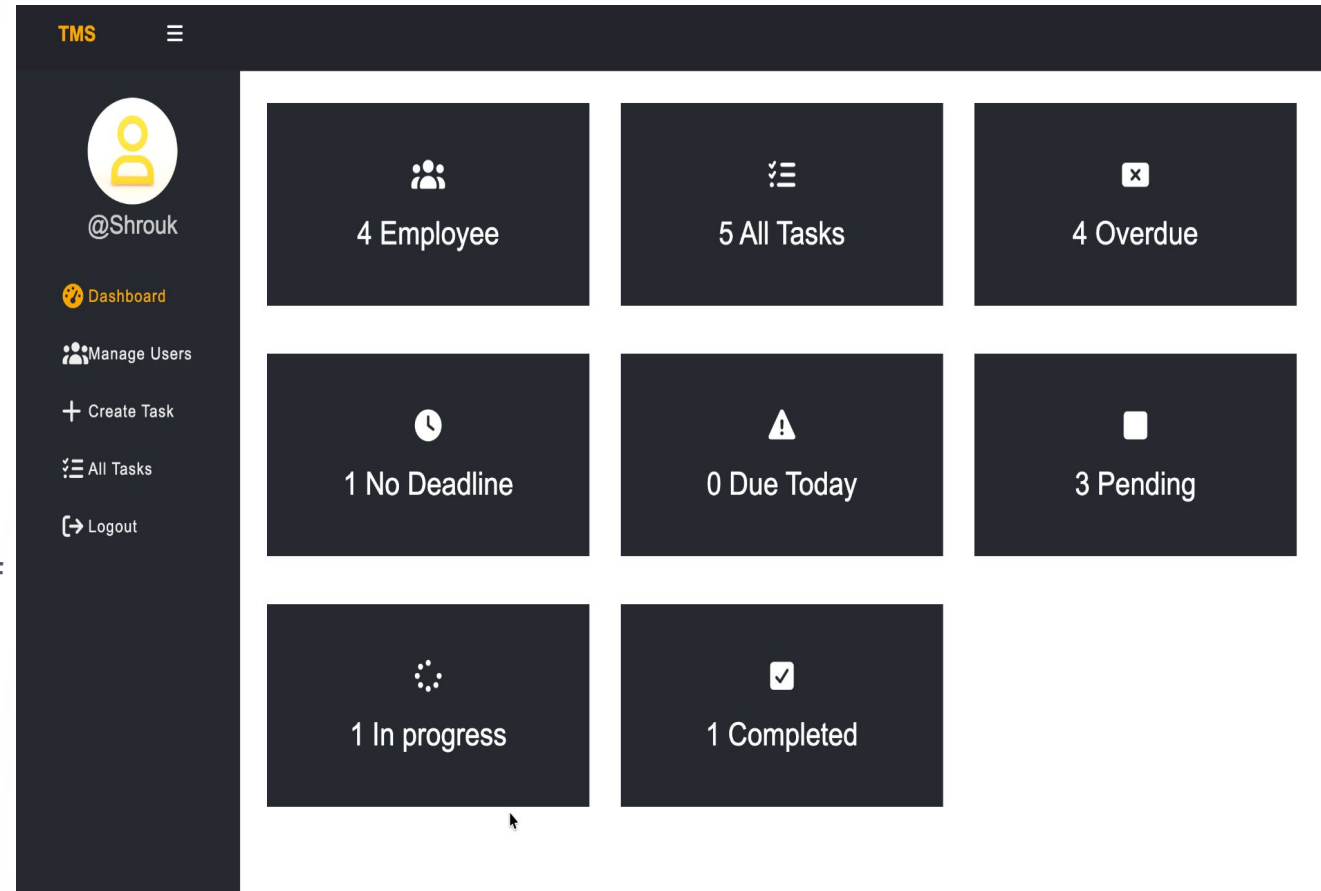

Employee

Employees have a focused workspace designed for productivity. They only see tasks assigned to them, keeping their workflow distraction-free.

- ✓ Restricted, personalized view
- ✓ Task status update permissions
- ✓ Personal profile management

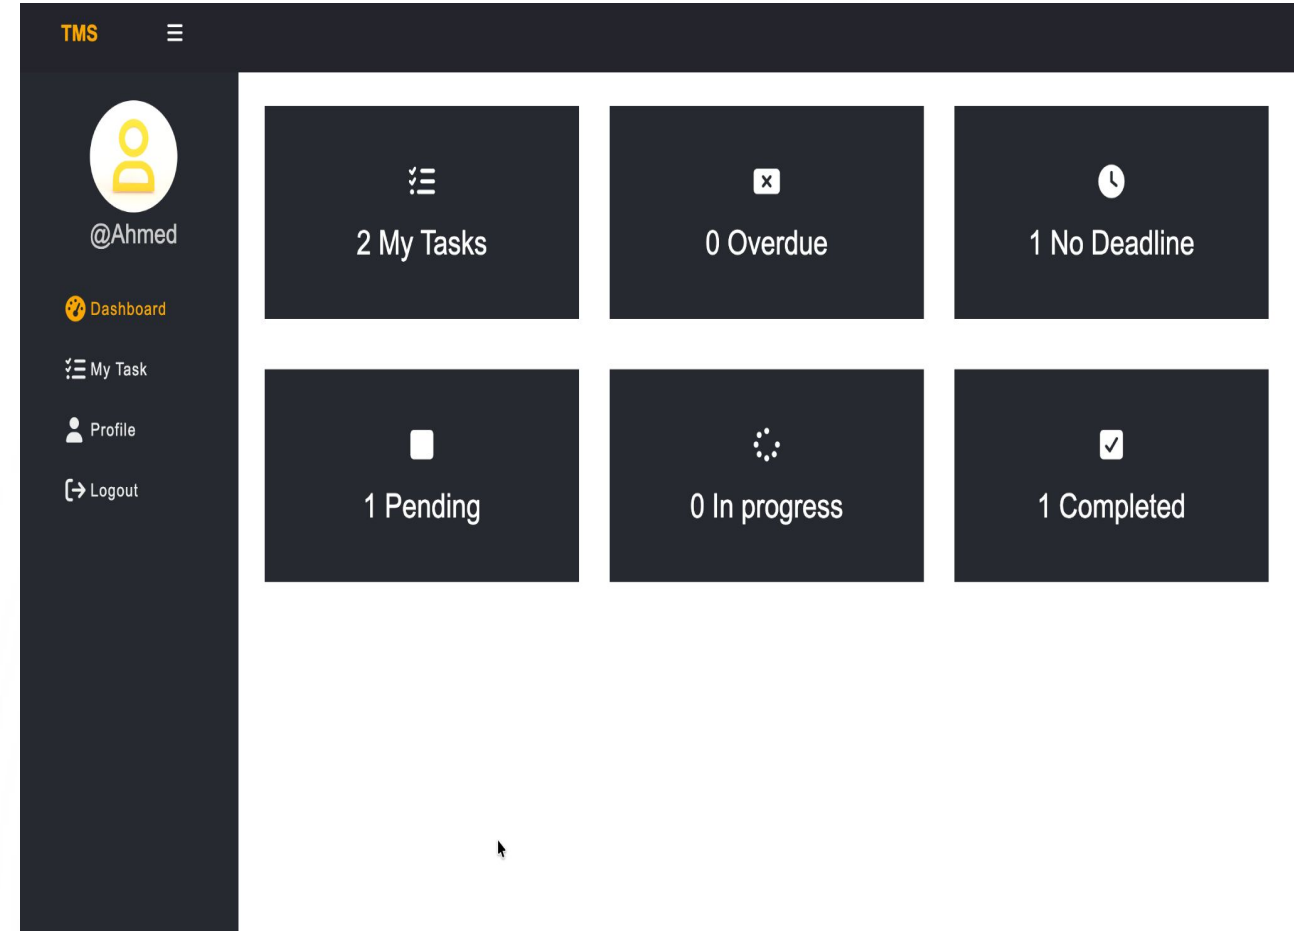

Administrator Portal

-  **Dashboard:** High-level system statistics and user overviews.
-  **Manage Users:** Complete control to view, add, or modify employee accounts.
-  **Create Task:** Assign new work with titles, descriptions, and deadlines.
-  **Manage Tasks:** Monitor the lifecycle and status of all organizational tasks.
-  **Logout:** Securely end the session and return to the Login screen.

Employee Workspace

-  **Dashboard:** A personalized summary of pending workload and recent assignments.
-  **My Tasks:** View assigned work details and update completion statuses (e.g., In Progress, Completed).
-  **Profile:** Manage personal account information and update credentials.
-  **Logout:** Safely exit the portal and redirect to the Login page.

Internal Operations & Pages

Add / Edit User

Dedicated forms restricted to admins to register new employees or update existing roles, emails, and system access.

Add / Edit Task

Comprehensive screens allowing management to define task scope, allocate it to a specific employee, and enforce deadlines.

Edit Profile

A self-service page allowing users (both admins and employees) to update their personal details and passwords.

Permissions Matrix

System Feature / Page	Administrator	Employee
View Global Dashboard	✓ Allowed	✗ Denied
Manage Users (Add/Edit/Delete)	✓ Allowed	✗ Denied
Create & Assign Tasks	✓ Allowed	✗ Denied
View "My Tasks" & Update Status	✓ Allowed	✓ Allowed
Edit Personal Profile	✓ Allowed	✓ Allowed

Thank You!
